

President Report - AGM 2020

Monday October 19th 2020

Wow! What a crazy time it has been! I know that those who returned, are happy to be back in the water after a long time away.

The behind-the-scenes work that took place in the months before our first practice back was huge and I want to thank all those who put in long hours to get us to the point where we would be allowed to return to the pool. This also includes Kris Kjellbotn for volunteering to be our COVID Risk Manager this season, which we had to have in place before we could be approved to Return To Sport. Thanks to all the families as well, on my own behalf, for being so prompt with all the required documentation and financial items that had to be submitted this year.

Everything is a little up-in-the-air this year and it will definitely be a year of being flexible as rules are constantly in flux. Luckily most of the club's documents have been thoroughly updated in the last couple years so that as I step down this year from my role as President, the new Board can (hopefully) put their focus on important matters of the moment while they learn their new positions. I will ensure that our registration with BC Society's Act and BCAS are both up-to-date with the new Executive members' information before handing it off - let's call it a Parting Gift

I will be staying on as Past President to assist the new Board Members as needed and show the ropes, if you will. I am hoping we can have a relatively quick and effortless transition and am looking forward to seeing what comes of this season.

Cheers
Jessica
