

## Head Coach Report Nov/20

Our training sessions have been working very well. Everyone is respectful of the guidelines and we are being creative without breaking any rules. We have decided to divide the pool width wise to allow more deep water time for each group. Taking the temperatures, health checks and communication with Kris, our Covid-Manager, has been working well. Thank you Kris!

Training meet #1 was on Nov. 14/15. It was a zoom meet with only the judges in attendance. They viewed the videos of each swimmer, marked them and gave comments. The swimmers were ranked just like a regular meet. Results can be found on the BCAS website. The format seems to have worked well. Training meet #2 is on Dec. 12/13 and will be done the same way.

I have been in contact with NAC regarding bookings in 2021. They are offering Sunday 7:30-9:00pm in the shallow lanes. NAC continues to do bookings on a month by month basis. As of right now and until at least Dec. 7 we are not allowed to train outside of our area so NAC is not an option.
